A WORLD CLASS MOTORHOME...

QUIETER RIDE

HIGH QUALITY

BY REXHALL®

The Aerbus 102" widebody has developed a reputation for quality and uniqueness. Quality made possible through workmanship and materials that come from a unique concept in manufacturing. Aerbus was one of the first mid-priced 102" widebody motorhomes brought to market, and through the years has become a leader in innovative floorplans. Whether you're looking for a non-slide motorhome in the 30' range or the exceptional styling in our "L" shape XL3550BSL (pictured at right), Rexhall has developed a product line that offers what you're looking for.

By the way, at Rexhall the beauty of our products doesn't just run "skin deep". Our welded "uni-body" steel cage design has been developed for unparalleled strength and durability and is the foundation of quality in every Aerbus motorhome. The result is a quieter, more stable ride, and the peace of mind knowing that you've selected a motorhome built to last. Visit one of our dealers today, and see first hand why at Rexhall we say, "An informed buyer is a Rexhall buyer!"

*Kick off your shoes and relax in some of the most comfortable and homelike furniture you'll find in a Class "A" motorhome.*

## MASTER SUITE *bedroom slides*

You simply have not seen a bedroom slide until you've seen the "MASTER SUITE *bedroom slide*" that Rexhall has designed (*pictured below*). Don't settle for a bedroom that makes you feel like you're sleeping with your head inside a tunnel. Rexhall has developed a bedroom slide concept that incorporates not only the bed, but the full length mirrored wardrobe as well. The

bedroom includes a convenient vanity along the wall at the foot of the bed, with flip up mirror and storage tray. The result is nothing short of astonishing! Conventional bedrooms are uniquely functional too! Forward facing RV King or Queen size walk around island beds highlight a spacious and comfortable experience. So, *Master Suite* or *Conventional*, we've got you covered.

## BEDROOMS THAT *"pass the test"*

Whether you've selected a floorplan that provides our traditional bathroom, providing a seamless one-piece shower, with toilet and sink together for the most in privacy, or the walk through, split bath design like found in the **XL3350L**, your individual needs have been addressed. The traditional style provides double doors that open to close off the hallway while maintaining access to your wardrobe. The split bath design includes a "garden style" tub/shower and spaciousness not normally found in RV bathrooms. All bathrooms include a gold trimmed glass shower enclosure, large porcelain sink, medicine cabinet and elegant lighting fixtures. Complete and functional designs that will "pass your test".

**STORAGE, STORAGE,  
...and more storage**

Exterior storage is another area where *Aerbus* 102" widebody gets an "A". Compare similar size motorhomes and you'll find that in most cases the *Aerbus* provides more exterior storage space than our competition. Plenty of room for skis, ice chests, golf clubs, deck chairs, or just about anything else you

can think of to bring along. It's not just space but convenience too. Our slide-out units actually have storage compartments that move out with the slide room so your access, even when the room is extended, is not impeded. Making life easier is what *Aerbus* is all about!

By exposing the

steel in our 2" vacuum

bonded sidewall, you

can see the welded (not

screwed) Uni-Body Steel

Cage that makes the

difference in strength,

value and safety in a

*Rexhall* motorhome.

REAL VALUE

PLUSH INTERIOR

## LIVING ROOMS AND GALLEYS

*are at the head of their class too!*

*Our galleys are further evidence of our attention to your needs. If culinary concoctions are your "cup of tea" take a look at the galley in our XL5650 series (at right). Counter space, cabinet space, and storage space galore. Careful you might be asked to host the potluck dinners all the time!*

Large comfortable sofas? We've got'em! Rocker recliners? We've got'em! Captain chairs that can swivel to become part of your living area? We've got'em! These are just of few of the features that you'll find when you review the available floorplans and what each one offers. How about a floor mounted 25" television for all your movies and sporting events. Don't forget to check out the uncommonly large windows, and imagine the panoramic views you'll be enjoying!
