AUTUMN RIDGE

Families interested in camping in an RV that is both affordable and convenient will find the Autumn Ridge to be the perfect package. With 12 spacious and well-designed floor plans, the 2015 Autumn Ridge offers a residential feel with enough room to relax or entertain friends and family. Boasting fresh new graphics for 2015, the Autumn Ridge also has special touches such as high-rise, residential-style kitchen faucets; large grab handles; and a decorative lighting package. The Autumn Ridge sleeps up to ten adults (select models) and features standard equipment and optional upgrades that will provide families with everything they need and more for an enjoyable camping experience – pure and simple.

UNLOADED VEHICLE WEIGHT (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories. The weights of certain options and/or option packages are not included in the UVW listed above.

GROSS VEHICLE WEIGHT RATING (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

CARGO CARRYING CAPACITY (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

HITCH WEIGHT (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight. It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Starcraft affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.

STARCRAFT -VS- THE COMPETITION

MAGNUMROOF SYSTEM STARCRAFT

Our Roof is 50% STRONGER!

Scan to learn all the ways that the MagnumRoof System by Starcraft is superior.

STARCRAFT

SCREWED CONSTRUCTION

We screw down 3/8" roof decking at each seam, which creates a more firmly secured structure and reduces the chance of fasteners coming loose and puncturing the rubber roof material.

STARCRAFT

2" X 2" VERTICAL WOOD STUDS

The Magnum Roof System uses 2" x 2" vertical studs, strategically placed to maximize load capacity. Nail plates also are used on both sides of the vertical stud to further enhance strength.

COMPETITORS

STAPLED CONSTRUCTION

Competitors staple their decking, which is not as strong or as reliable as screwed construction.

COMPETITORS

1" ALUMINUM PIECE

Competitors use a 1" piece of aluminum as their vertical support, which provides less strength in important areas.

STARCRAFT

7" HEADER BEAM

Between the roof and slideout openings, we use 7" header beams, a more acceptable material used in home construction for load-bearing beams.

COMPETITORS

2" X 6" LUMBER

Competitors use a 2" x 6" piece of lumber, which creates a weaker 5 1/2" beam.

STARCRAFT

OVERSIZED NAIL PLATES

Starcraft uses oversized nail plate joint fasteners on both sides of the trusses, making for a much tighter truss with less chance of movement.

STARCRAFT

4,500 LBS. ON A STARCRAFT ROOF

The Magnum Roof System withstood 4,500 lbs., which translates into an extremely sturdy roof system for you and your Starcraft RV.

COMPETITORS

SMALLER NAIL PLATES

Competitors use smaller nail plates, and in most areas, only use them on one side of the truss, increasing the likelihood the roof will flex.

COMPETITORS

4,500 LBS. ON OTHER ROOFS

You get the picture.

50 YEARS OF AFFORDABLE DURABILITY

Starcraft builds a variety of RVs, from the entry-level Starflyer camping trailer to our premium-rated Travel Star travel trailer. Throughout each unit, it is evident to customers that our Amish craftsmanship and attention to detail are what make Starcraft products unique and family-friendly.

Staying true to our pursuit of affordability and durability, we use the highest-quality materials available, state-of-the-art production techniques and time-tested design. We put all of our time and effort into making a quality camper at an affordable price.

What started out five decades ago as an idea to provide families with a way to reconnect and enjoy the great outdoors has grown into a company that takes great pride in saying that Starcraft means Camping - Pure and Simple.

ROADSIDE ASSISTANCE

Travel worry-free with the complimentary 1-Year Roadside Assistance program, which gives you immediate access to dependable roadside assistance with a simple phone call (available at participating dealers).

DURABLE CONSTRUCTION

A firm foundation is built on 2" x 3" floor joists with 5/8" tongue-and-groove plywood with R-7 fiberglass insulation. The walls provide a long-lasting structure with 2" x 2" wooden studs on 16" centers, .024 aluminum exterior siding and R-7 fiberglass insulation. A one-piece seamless rubber roof membrane covers 4 1/2" arched trusses, 3/8" decking and R-7 fiberglass insulation, providing protection from the elements.

EXTENDED CAMPING

Our optional Arctic Package extends your camping season and provides protection against frigid temperatures with its insulated, heated and enclosed underbelly. For additional protection, the optional full-foil wrap boosts your R-values to R-24 in the floor, R-19 in the walls and R-22 in the roof.

PEACE OF MIND - PURE AND SIMPLE

The Starcraft warranty is a manufacturer's limited warranty. Each Starcraft is warranted to the original purchaser for twenty-four (24) months from the original date of purchase against defects in materials and workmanship. Starcraft's limited warranty is not transferable. For a copy of the limited warranty with full terms and conditions, ask your local Starcraft dealer.
