# *E* VOLUTION OF A LEGEND.

At Fleetwood RV, we've been making America's favorite recreational vehicles for nearly 50 years. We've done it by building honest value, rugged dependability and peace of mind into every one of them. The legacy continues with the 1999 Pace Arrow. It's a unique combination of traditional value and refined luxury. Created to give you the chance to chase your dreams wherever they take you, your Pace Arrow is a fresh approach to traveling in style. From the gleaming brass to the rich oak, its residential interior is a sophisticated balance between relaxed elegance and convenient practicality. There's a pantry with pullout baskets, a passenger-side workstation for your desktop computer and day/night pleated shades throughout. The living room fabrics feature flat woven jacquard or tapestries that are as durable as they are elegant. An island queen-width bed is at the heart of the color-coordinated bedroom, and the bathroom features an open, airy skylight shower. There are several floor plans with our EZ Glide™ Room Slide-out System, which effortlessly makes your RV more spacious. Our new EZ Store™ Storage System moves with the slide-out room, so you always have easy access to the storage area below. In other words, Pace Arrow is enough to keep you from ever missing home again.

<sup>1</sup> GVWR (Gross Vehicle Weight Rating): Maximum permissible weight of this motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.

<sup>2</sup> GCWR (Gross Combination Weight Rating): Value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed trailer or towed vehicle.

<sup>3</sup> GAWR (Gross Axle Weight Rating): Maximum permissible loaded weight a specific axle is designed to carry.

\*Tank manufacturer's listed water capacity (WC) actual filled. LP capacity is 80% of listing due to safety shut off required on tank.

MODEL  
**31E**

- Queen bed or opt'l twin beds
- Split bathroom
- Dinette and sofa bed
- Opt'l sofa bed and lounge chairs
- Mid-cabin entry door

MODEL  
**33G**

- Queen bed or opt'l twin beds
- Dinette or opt'l table w/chairs
- Lounge chair
- Private toilet
- Dual wardrobes

MODEL  
**34N**

- Living room slide-out
- Swivel chair w/table
- Bedroom slide-out
- Extra large wardrobe
- Opt'l side-by-side refrigerator

MODEL  
**35J**

- Dinette or opt'l table w/chairs
- Fully enclosed bathroom
- Bedroom wardrobe w/dresser
- Swivel chair w/table
- Opt'l twin beds

MODEL  
**35K**

- Galley slide-out
- Dinette or opt'l table w/chairs
- Dual wardrobes
- Opt'l side-by-side refrigerator
- Opt'l twin beds

MODEL  
**37S**

- Living room slide-out
- 3 bedroom configurations
- Dinette or opt'l table w/chairs
- Opt'l side-by-side refrigerator
- Opt'l washer/dryer

# 1999 PACE ARROW FEATURES AND AVAILABLE EQUIPMENT

## Exterior Automotive and Electrical, *Standard Equipment*

## Safety, *Standard Equipment*

Smoke Detector	Carbon Monoxide Detector	LPG Detector
Fire Extinguisher	Emergency Exit Window	

# WHEN THE DUST SETTLES, THERE'S NOT AN RV IN THE WORLD THAT'S TESTED LIKE A FLEETWOOD RV.

If anyone loves to tear an RV apart, it's us. Because at Fleetwood RV nothing's more important than your safety and comfort. While our improvements aren't all visible to the eye, we commit millions of dollars a year in product development and research to build what we believe are the finest RVs in the world.

*Vacubond construction ensures that every roof, wall and floor is completely sealed.*

It all starts with advanced computer analysis of new prototype designs. Once built, the prototypes undergo rigorous load bearing and weight distribution stress tests. Stringent load analysis software ensures improved reliability.

Then the relentless testing and re-testing of components begins. In a couple of weeks we can simulate years of real world

use. Slide-out mechanisms have to open and shut thousands of times without a complaint. Seat belts must withstand more than three-ton stress levels without a whimper. And doors have to endure tens of thousands of slammings without losing their composure.

At the end of the day, we've thrown just about anything and everything we can at our units, just to make sure we have the best designed and most thoroughly tested RVs in the world. Then we back them with a limited 1-year/3-year warranty supported by Fleetwood RV dealers throughout the U.S. and Canada. So you have what we believe to be the best-handling, safest, most comfortable RV anywhere.

*We only use steel and aircraft-grade aluminum frames, giving you more strength and less weight.*

Dear Friend,

Here at Fleetwood RV, we have over 200 people working on research and development. But we get our best ideas when we hit the road in our recreational vehicles. Talking to people like you and noticing for ourselves little ways to make RVing more comfortable, more convenient and more fun.

If I had two pieces of free advice to give a friend in the market for an RV, the first would be to get a Fleetwood RV. Not because we need to sell one more. Heck, we sell more than anyone else. But because I know we build the best product out there for the money.

Second, really think about your dealer. He has to be someone you trust for advice, service and accessories. Only the best get to be Fleetwood RV dealers in the first place. Then we work with them to continually improve customer satisfaction. That's why 9 out of 10 owners would recommend their Fleetwood RV to a friend and 9 out of 10 of them would also recommend their Fleetwood RV dealer.

I hope that helps. And I also hope I see you out there, somewhere in this beautiful world, enjoying your new Fleetwood RV while I'm out there doing the same.

John C. Crean

Product information and photography included in this brochure were as accurate as possible at the time of publication. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All fuel and liquid capacities are approximate and dimensions are nominal. Fleetwood has designed its motor home brands to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, seating and sleeping capabilities. Though the customer enjoys this potential, he/she also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.
